Education

- | | |
|--|---------------------|
|  Alexandru Ioan Cuza University of Iași , M.S. in Artificial Intelligence and Optimization | Oct 2025 – present |
|  Alexandru Ioan Cuza University of Iași , B.S. in Computer Science | Oct 2022 – Jul 2025 |
|  Petru Rareș National Collage, Suceava , Mathematics and Computer Science | Sep 2018 – Jul 2022 |

Experience

- Computer Science and ICT Teacher**, National College of Iași Sep 2025 – Present
- Teaching Computer Science and ICT classes to middle school students
 - Preparing educational materials, practical activities, and student assessments
 - Guiding students in developing digital and problem-solving skills
 - Technologies: C++, Google Workspace, Microsoft Office

Projects

- Smart Farmer**  SmartFarmer
- Developed a 2D implementation of the Smart Farmer puzzle game featuring a graphical interface and interactive gameplay.
 - Implemented an optimal automatic solver using backtracking with incremental search for minimum fence placement.
 - Added level management, score tracking, timer system, undo functionality and graphical level selection.
 - Tech Stack: C++, SFML, CMake.

- SVG-to-PNG Renderer**  SVG-to-PNG-Renderer
- Developed a simplified SVG rendering engine capable of parsing SVG/XML files and exporting raster PNG images.
 - Implemented rendering support for geometric primitives including rectangles, circles, ellipses, lines, polylines and paths.
 - Designed a rendering pipeline involving XML parsing, scene representation, rasterization and PNG export.
 - Tech Stack: Python, Pillow (PIL), XML processing.

Technologies

Languages: Python, Java, C++, JavaScript, PL/SQL
